Concrete Plants Managed

×2

Production Doubled via QC

41M

SAR Project Managed

PROFESSIONAL SUMMARY

Results-driven Ready-Mix Concrete Plants Manager with 20+ years of hands-on experience operating batching plants, crushers and quality control across Saudi Arabia and Egypt. Managed 6+ concrete and asphalt plants to date and doubled production output by resolving production bottlenecks and enforcing rigorous QA/QC systems. Hold an M.Sc. specialized in Engineering Economics with concrete laboratory and batching plant management, currently a PhD candidate in AI-driven management, and developer of purpose-built ERP systems for concrete and asphalt plants — a rare blend of field expertise, scientific management and technology that converts directly into higher output, lower waste and lower cost per cubic meter.

KEY ACHIEVEMENTS

- ✓ Doubled plant production rates (×2) by solving production problems and enforcing strict quality control.
- ✓ Simultaneously managed **3 concrete/asphalt plants + 1 crusher** across Al-Baha, Shamariikh and Baydah regions.
- ✓ Ran **3 ready-mix plants + Akwa crusher + full transport fleet** with executive authority (Aflak Al-Mimar – Jizan & Sabya).
- ✓ **Officially accredited by Al-Baha Municipality** as Project Manager for asphalt/infrastructure contracts exceeding **SAR 41M**.
- ✓ Built and deployed **Concrete Plant ERP & SmartLab** systems for real-time plant production and quality management.

CORE COMPETENCIES

- Batching plant operations & production planning
- QA/QC — laboratory & field testing
- Preventive maintenance & downtime reduction
- Cost-per-m³ reduction & waste control
- Operations, lab & fleet team leadership
- Mix design development & compliance
- Crushers & aggregates supply chain
- Production scheduling & on-time delivery
- ISO Quality / Environment / OHS systems
- HSE & occupational safety

PROFESSIONAL EXPERIENCE

Executive Director — Sand Point Contracting, Dammam – KSA | **2026 – Present**

- Leading full company operations: project delivery, resources and team management, client and supplier relations.

Bakhroush Saad Bakhroush & Partners for Trading & Contracting — Al-Baha – KSA | **2025 – 2026**

★ **Internal promotion: Plants, Crushers & QC Manager → Project Manager for asphalt paving & land-grant schemes (King Fahd Scheme), accredited by Al-Baha Municipality — contracts exceeding SAR 41M.**

- Operated 3 concrete/asphalt batching plants + 1 crusher across Al-Baha, Shamariikh and Baydah: mix design oversight, field QA/QC, maintenance and supply chain.
- Doubled production output after eliminating production-line bottlenecks and applying a strict batch-by-batch quality cycle.

Executive Director — Aflak Al-Mimar Real Estate Development, Jizan – KSA | **2025**

- Managed 3 ready-mix plants (Jizan & Sabya) + Akwa crusher + transport fleet: production, quality, maintenance, costing and major-contractor satisfaction.

Director of Engineering & Operations — Al-Madina Co. (Arab Organization for Industrialization – Saqr Factory), Egypt | **2024**

- Manufacturing and QA review of specialized concrete mixers — insider engineering knowledge of batching equipment itself.
- Directed restoration/strengthening of heritage structures and special-purpose facilities (civil defense & logistics buildings).

Head of Civil Engineering Department — Kortech (Hassan Allam Group), Al-Arish International Airport | **2023 – 2024**

- Led all civil and infrastructure works for both military and civilian sections of the airport.

Concrete Laboratories Researcher — Faculty of Engineering (Shoubra), Benha University | **2017 – 2024**

- Applied research enhancing concrete properties: density, fire resistance, durability, and admixture effects on compressive strength.
- In parallel: Consulting Civil Engineer for traffic impact studies and intersection analysis (Hayat Consultancy Office).

Early Career | **2003 – 2023**

- Projects Manager — Imperial Construction (roads, infrastructure, landscaping).
- Site Manager — Development of Governorate Capitals project, Egyptian Armed Forces.
- Progressive growth to Senior Civil Engineer — CBM Consultants & Contracting (Egypt & Gulf: flood protection and concrete water structures).
- Trainee — Arab Contractors (Ready-Mix Concrete Plants).

EDUCATION

PhD Candidate — Civil Engineering: AI-Driven Management of Future Technological Challenges

Faculty of Engineering (Shoubra) – Benha University | **Academic phase completed 2025 — defense procedures underway**

M.Sc. in Civil Engineering — Engineering Economics, Concrete Labs & Batching Plants Management

Benha University | **Excellent, GPA 3.67 — 2022**

B.Sc. in Civil Engineering

Faculty of Engineering (Shoubra) – Benha University | **2018 — Graduation Project: Excellent**

Diploma in Automatic Control & Machinery Maintenance

Industrial Technical Institute, Benha | **Excellent with Honors — 2005**

CERTIFICATIONS

- 🔗 Certified ISO Internal Auditor — American Quality Institute: ISO 9001:2015 QMS • ISO 14001:2015 EMS • ISO 45001:2018 OHSMS
- 🔗 PMP — Project Management Professional (5th Edition)
- 🔗 Google Professional Certifications: Digital Marketing & E-commerce + Google Analytics 4
- 🔗 Institutional TOEFL 673 — Professional working English

DIGITAL SYSTEMS I BUILT FOR PLANT MANAGEMENT

🏢 **Concrete Plant ERP:** Integrated platform for concrete plants: production, inventory, invoicing, live reporting → concrete.fimtosoft.com

🏢 **Asphalt Plant ERP:** Asphalt plant operations, production and reporting management → asphalt.fimtosoft.com

🏢 **SmartLAB:** Laboratory quality-control automation for concrete testing → smartlab.fimtosoft.com
